Neighborhoods and Places

The Center for Neighborhoods, in Louisville, KY, works to empower neighborhood leaders and citizens to make well-informed decisions by sharing knowledge between neighborhoods, governments, and community organizations. We provide information, comprehensive data and powerful digital mapping and visualization tools to help citizens understand what's going on around them, and identify solutions to neighborhood issues. Engaged residents informed with clear information and visuals reinforce a healthy community and support a higher quality of life in Louisville.

The maps shown here are built using the LOJIC GIS database and are presented here in a series of thematic map tabs. Each tab map can be accessed for more detailed viewing and analysis by clicking on the map link as seen below:

Activity: Report Back

Who are you?

Tell us:

- **Name**
- **Neighborhood**
- **What you want to learn?**
- **One thing you are passionate about in your neighborhood**

Activity: Report Back

What do you want to learn?

... About how to be a good local citizen?

... About other parts of the city?

... About a specific Metro department??

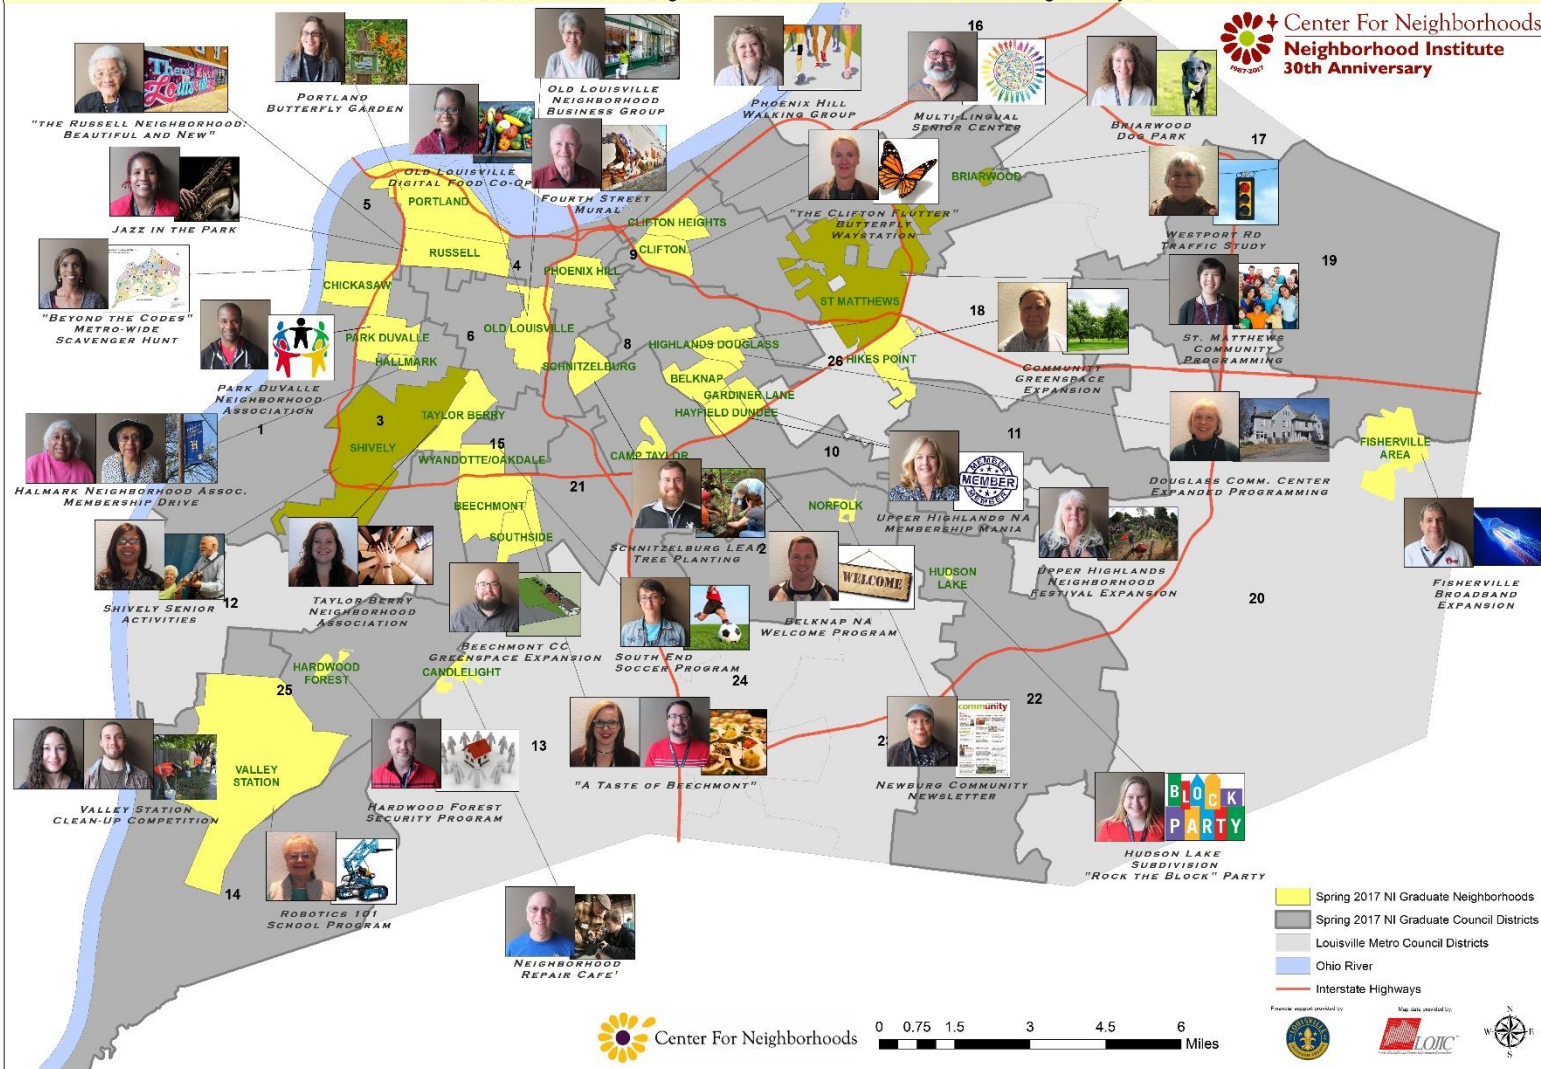

... About bringing people in your Neighborhood closer together?

Project Introduction

Micro Grant Program

Homework:

Three Weekly Challenges

1. Look up your home address on LOJIC
(<http://apps.lojic.org/lojiconline>)
2. Share something from “Did You Know...” with a neighbor
3. Ask neighbors, neighborhood association members or HOA members for project ideas
